**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1, 4-10, 12, 16-33 and 36-39 are allowed.

The following is an examiner's statement of reasons for allowance: The specific limitations "both ends of the third tubular body being fixed to the second tubular body so as to close the gap between the second and third tubular bodies at both ends thereof, the third tubular body including a second filter part at an outer circumference thereof." in the combinations as claimed in claims 1 and 10, and in the method as claimed in claim 22 is not anticipated or made obvious by the prior art of record in the examiner's opinion. For example with reference to Figure 1 Pope (US Patent 4,976,296) discloses a powder filling nozzle comprising a tubular body (12) and a gas separating unit (19), wherein the gas separating unit serves to set the opening in a plugged state by the powder separated from the gas (Column 3, lines 36-40). Pope also discloses a double pipe structure including a first tubular body (12) and a second tubular body (13). Pope discloses an external gas suction unit (20). Pope also discloses a triple pipe structure including a third tubular body (14).

However, the prior art of record fails to teach or suggest the specific limitation of "both ends of the third tubular body being fixed to the second tubular body so as to close the gap between the second and third tubular bodies at both ends thereof, the third tubular body including a second filter part at an outer circumference thereof." In the combination as claimed in claims 1 and 10, or the method as claimed in claim 22.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
